Chinese Units & A. V. G. Bomb Jap Positions

Yengchi Recaptured: Enemy Garrisons And Communications Seriously Damaged

CHUNGKING, June 3.

On May 30, Chinese units attacked a Japanese garrison near Shasi, and inflicted considerable casualties on the enemy.

Some war material was also captured.

CHINESE FORCES OPERATING IN THE SHASI SECTOR, ATTACKED JAPANESE POSITIONS AND DESTROYED JAPANESE COMMUNICATIONS.

ONE CHINESE UNIT ENCOUNTERED AN ENEMY DETACHMENT OF 1,000 STRONG, AND INFLICTED 300 CASUALTIES ON THE ENEMY.

A. V. G.'s RECORD

CHUNGKING. — From somewhere in Yunnan, a Central News despatch says that the A.V.G. Headquarters yesterday noon issued a "communique" describing A.V.G. activities in the last week. On May 25, the A.V.G. planes successfully attacked the Japanese positions on the west bank of the Salween river. On May 26, these planes reconnoitred Wanting, Mongshih and Mungling, and bombed the Japanese at Chefang. On May 27, the "Flying Tigers" in co-operation with other wings of the Chinese Air Force stormed Lungling and Mong Shih, scoring direct hits and inflicting heavy damage. On the following day (May 28) the A.V.G. brought down one enemy plane, and seriously damaged another in the vicinity of Lashio, which sustaining no loss to themselves, the A.V.G. and the Chinese Air Force simultaneously bombed and strafed the highway west of the Salween. On May 30, the A.V.G. again attacked the communication lines of the Japanese in the vicinity of Laokai, in Northern French Indo-China, inflicting heavy losses on the enemy.

Yengchi Re-captured

CHUNGKING:— Supplementing last night's war "communique" issued in Chungking, a Central News despatch stated that Chinese forces behind Japanese lines had recaptured Yengchi, north of Fuchou in the Western Chekiang province. A Japanese column, which moved towards Shuhsien from the north-east, was still being engaged by the Chinese at a point some 20 kilometres north-east of Shuhsien.

The despatch also stated that a heavy rainfall in Chekiang yesterday washed away a number of highway bridges, and damaged several roads, thereby hindering enemy land operations.

SHANGHAI COURT MARTIAL

CHUNGKING, June 3.

Five Britons in Shanghai have been sentenced by Japanese Court Martial to varying terms of imprisonment on charges of espionage against Japan and Germany, according to reports reaching here. They include the former Vice-Chief of the Shanghai Volunteer Corps. A sixth British subject has been detained on the same charge, but the trial has been delayed as he is seriously ill.—Reuter.

OYSTER ISLAND ATTACKED

NEW DELHI, June 3.

R.A.F. bombers on June 2 attacked objectives on Oyster Island off Akyab harbour, says a 'communique'. Bursts were seen south of the jetty on the east of the island and near the light house. Low-level machine-gun attacks were made on huts in the vicinity of the light house. Our aircraft returned safely from these operations.—A.P.

All-round Raids On Enemy Occupied Territories

AUSTRALIA, June 3.

Allied Headquarters, Australia: An official communique to-day states: "Timor Atamboea: Japanese barracks was demolished and extensive fires started in a heavy attack by our airforce. Ten miles South of Atamboea another barrack building and road transport were brought under fire. One of our planes failed to return.

RABAUL: Allied aircraft strafed an Aerodrome in a light attack.

SOLOMONS TULAGI: Our airforce bombed enemy installations starting huge fires. One large warehouse was destroyed.—All our planes returned".—Reuter.

JAP FORCES BEATEN BACK

Fierce Battle Raging Near Chuhsien:

CHUNGKING, June 3.

Furious fighting is raging tonight at Ping-Tang-Shan where General Chiang-Kai-Shek's army is fiercely contesting a Japanese thrust towards Chuhsien, China's "Bomb Tokyo" aerodrome ten miles to the west.

Chuhsien is about 50 miles west of Kinhwa, the Chekiang capital, which the Japanese captured last week.

For two days 50,000 Japanese troops have been attacking Chinese positions in the hills between the two cities but vigorous Chinese counter-attacks have cost them more than 500 killed and wounded.

Further south another Japanese force has been beaten back by Chinese infantry and artillery. Most of the attacking force was wiped out.

Japanese troops routed yesterday at Shouchang, north-west of Kinhwa, were reported to-night to be in full flight.

One of three Japanese columns advancing from Tsenghsin has been intercepted at Lanpinglang, while a force from Shenkang has been stopped at Fengyunglin.

Chinese Counter-Attack

CHUNGKING:—A Chinese "communique" this evening states a big battle for the possession of Chuhsien, some 50 miles west of Kinhwa, Central Chekiang, began on this morning.

The Japanese general offensive, waged from north-east, south-east and east of the city, subjected the Chinese forces to heavy artillery and aerial bombardment.

The Chinese, under cover of artillery barrage, are counter-attacking.—Reuter.

A. I. C. C. Requests Return Of Seized Machines

(From Our Correspondent.)

ALLAHABAD, June 2.

It is understood that the office of the All-India Congress Committee has moved the District Magistrate of Allahabad for the return of cyclostyle machine and the typewriter recently seized by police. The articles, it is contended, are not prejudicial reports. The cost of cyclostyle machine is about Rs. 2,000. The search in the A. I. C. C. office has made it difficult for printers of the Congress bulletin here to proceed with the bulletin. Doubts have arisen in their minds whether under the Defence of India Rules a bulletin can be published. They have been consulting the legal opinion about it.

Allahabad City Congress Committee has decided to enrol about 500 full time volunteers for Civil Defence Work, 150 have already been enrolled.

RAGHAVENDRA RAO RESIGNS?

NEW DELHI, June 3.

The "United Press" learns that Dr. E. Raghavendra Rao has resigned the membership of the Viceroy's Executive Council on ground of ill-health.

His resignation will take effect after he has reached home.

SLIGHTLY BETTER

Enquiries at 11 to-night showed that the condition of Hon. Mr. Raghavendra Rao is slightly better.—A. P.

NAZIS UNABLE TO START OFFENSIVE

Russians Steadily Improving Their Positions Round Leningrad

MOSCOW, June, 3.

A tense war in the air is being fought out in the southern and south-western sectors, according to dispatches received here.

Soviet pilots are not only protecting their own troops and military objectives but striking hard and frequent blows at Axis aerodromes. The landfront in the south is relatively quiet after the recent great fight along the Donetz.

There is much activity, however, in Kalinin and Leningrad sectors. For some weeks the Russians have been steadily improving their positions round Leningrad. Many German troops have been arriving there during the past two months to reinforce units continually being depleted.

In the Kalinin sector where the German losses have also been large, the invaders have been making greater efforts than elsewhere to seize the initiative. Though here and there the army has temporarily lost few villages, nowhere have the Germans been able to start an offensive. The knowledge that the R.A.F. is meeting out fearful punishment to German industries is inspiring Red workers to "go to it" with redoubled energy.—Reuter.

GERMANS PRESSED BACK IN LAKE ILMEN AREA

MOSCOW, June 3.

The Moscow radio reports that Soviet forces are pressing back the Germans on the north-western front in the Lake Ilmen area. The Germans are being thrown out of several strong points, according to a frontline despatch.

Tuesday's Soviet communique says, "During June 2nd nothing of importance took place at the front. On some sectors of the front local fighting took place."—Reuter.

Sir Sikandar's New Role

Offers To Sever Connection With League If Akalis Deserted Congress

(From Our Correspondent)

LAHORE, June 3.

It is authoritatively revealed that Sir Sikandar Hyat Khan, Premier of the Punjab, has made an offer to the Akalis. He advised them to leave the Congress, while in turn he was prepared to sever his connection with the Muslim League and oppose Pakistan in the Punjab. But the Akalis have not agreed to the proposal.

An early official statement on the reshuffling of the Punjab Ministry is expected. It appears that the Premier is anxious to effect a settlement with the Akalis at least for the duration of the war. The terms of settlement would include 20 per cent share in Government services for the Sikhs, non-controversial legislation during the war and Hindi and Gurmukhi will have the same place as Urdu.

Sardar Baldev Singh, Leader of the Punjab United Party, will hold the development and Industries Portfolio.

A spokesman of the Akali Party made it clear that the settlement had nothing to do with the politics of the Akali Party who joined the Congress Party.

BIG BILL FOR U. S. SUBMARINES

WASHINGTON, June 3.

Over 887 million dollars is earmarked for submarine construction in a Supplementary Navy Marine and Coastguard Supply Bill which the Appropriations Committee of the House of Representatives sent to the House to-day.

This is out of the sum of 1,037 million dollars in contract authorisation and a further 655 million in direct appropriations in the Bill.

It is estimated that this would provide one hundred long distance submarines to the fleet.—Reuter.

Gestapo Decrees Conscription Of Women Police

STOCKHOLM, June 3.

The Gestapo Chief has decreed that women are to replace all police officials doing inside office work except in the highest positions. This decree was made necessary, it is learned, because of the need for German police troops in France and other occupied countries.—Reuter.

R. A. F. BOMBERS ATTACK RUHR AGAIN

Docks At Dieppe Also Bombed: Mines Laid In Enemy Waters

LONDON, June 3.

To-day's Air Ministry 'communique' states: "Last night a strong force of our bombers attacked Essen and other objectives in the Ruhr. Large fires were left burning.

The docks at Dieppe were also bombed and mines were laid in enemy waters. Aircraft of the fighter command attacked airfields, railways and industrial targets in occupied territory and fourteen of our aircraft are missing. Two enemy aircraft were shot down by our bombers in the raid on Ruhr on Monday night."—Reuter.

EVACUATION FROM COLOGNE

THE GERMAN FRONTIER, June 3.

About 200,000 people are being evacuated from Cologne to Munich, Stuttgart and other places in the south, according to reports reaching here from Germany.—Reuter.

FRENCH PATRIOTS RAID ARMS AND MUNITION DUMP

LONDON, June 3.

A daring raid by French patriots on a German arms and munition dump at Hazebrouck, a town near the Belgian border, is reported by the Soviet Information Bureau to-day. They carried away a large quantity of arms and then blew up the rest of the dump. The German police, although feverishly searching, have not been able to find those responsible so far.—Reuter.

R. A. F. Over Occupied France

LONDON, June 3.

Over 200 Spitfires and some escorting Hurricane bombers swept the Letreport - Abbevile - Grisnez area of occupied France this afternoon, it is announced in London.

Hurricanes bombed the railway at Letreport from 50 feet.

"We were low enough to see sleepers and sections of the line fly through the air," said the pilot.

German fighters went up but avoided combat with the Spitfires. All British aircraft returned safely.—Reuter.

OPERATIONS IN LIBYA

Rommel Crippled In First Round

Br. Force Carrying Out Effective Raids On Enemy Supply Lines

LONDON, June 3.

The first phase of the operations in Libya has ended with the enemy having failed to attain his objective it is stated in London authoritatively.

General Rommel is now staging a second attack which has not yet developed. By occupying the area between the two gaps in the British minefields, General Rommel has apparently created one gap and thus enlarged his bridgehead and is now in a better position to supply Axis troops east of the British positions than he was before. These supply lines are being harassed by British forces.

The British forces now at Rotunda Segnali are in a good position from which to sally forth to attack Rommel's supply lines.

WHITE PAPER ON COAL CONTROL

Govt. Move To Organise Industry

LONDON, June 3.

Government plan to control coal industry will be published in a White Paper to-day. The industry is to be reorganised and the rationing system is to be included in the proposals. The rationing will not operate immediately.

There is also to be a Ministry of Fuel and Power which will be in charge of coal, oil, gas and electricity. The Labour and Conservative parties are meeting on Thursday to consider the plans upon which there will be an early debate.

The Labour Party is likely to accept them although protests are expected from those who wish the Government to take more drastic action—full nationalisation.

Besides providing for fuel rationing, the White Paper issued today announces that Government has decided to assume full control over the operation of the mines and organise industry on the basis of National Service. The organisation now to be established will continue pending final decision by Parliament on the future of the coal industry. This step has been taken with a view to increasing the output without delay, private interests being subordinated to the over-riding needs of increased production.

NATIONAL COAL BOARD

A responsible Minister will take full control over the operation of all coal-mines and over allocation of coal raised. In addition, a National Coal Board will be established to plan production and secure the highest efficiency in the industry. It will be assisted by Regional Controllers and Regional Boards.

The White Paper fixes the fuel ration at seven and a half hundredweights yearly per person in addition to household rationing. But the Government has decided not to introduce forthwith the compulsory scheme for rationing domestic fuel.—Reuter.

MINISTER OF FUEL

LONDON, June 3.

The appointment of a Minister of Fuel will be announced shortly.

It is expected that the Parliamentary Secretary to the Ministry of Food, Major Gwillym Lloyd George, will be appointed to this post. The Government has decided against withdrawing further men from armed forces for work in coal mines according to the White Paper.—Reuter.

DUST STORMS NEAR OPERATIONS

CAIRO.—The R.A.F. 'communique' says: "Dust storms again curtailed air operation over Cyrenaica yesterday. Enemy mechanised units north of Bir Hakeim were bombed and our fighter aircraft were active in the forward area.

Enemy air activity was on a reduced scale. The submarine base at Augusta in Sicily was raided during Monday night. An Italian fighter was shot down by our aircraft over Malta yesterday morning.

Three of our aircraft are missing from these operations but one pilot is safe. The crew of one bomber aircraft reported missing on May 30th has now reached safety."

ROMMEL'S BIG HEADACHE

Gen. Rommel's big headache at present is the activity of Allied patrols against his supply routes which armoured fighting patrols consisting of Indian and Free French motorised units have been effectively raiding. The southern flank of the British line is still holding out as the result of determined fighting from the first day of the offensive by an Indian motorised brigade and a Free French Force.

BR. TROOPS OCCUPY ROTUNDA SEGNALI

CAIRO:—To-day's Middle East War "communique" states: On the 1st of June, our troops occupied Rotunda Segnali, an enemy strong point about 30 miles west of the main positions. Our columns are actively harassing the enemy lines of supply from the west. The enemy has succeeded in occupying an area between gaps in our minefield. Considerable fighting continued yesterday in the area west of Knightsbridge. An attack by the enemy on Bir Hacheim which continued throughout yesterday failed. Heavy sandstorms hampered air and land operations.

China To Share From Common Pool

EDEN ASSURES "LEND-LEASE" ASSISTANCE

LONDON, June 3.

The Foreign Secretary, Mr. Eden, made a brief statement in the Commons to-day in reply to a question on assistance now being given to China. "I am sure there is no one in this House or in the country who does not fully recognise the important part played by China in the ranks of the United Nations and the need to give her every assistance in our power." He said. "China is being furnished under lease-lend arrangements made by this country and the United States with all munitions of war and military equipment it is possible to supply, having regard to other urgent requirements and difficulties of transport.

COMMONPOOL MADE AVAILABLE

Allocation of these munitions is made from a common pool by the Combined Munitions Assignments Board in Washington and London. I would remind the House of the fifty million sterling loan which His Majesty's Government, are making available to Chinese Government, for War purposes and the earlier sterling credit of eight millions under which we have done our best to deliver all military requirements, we could possibly spare from the needs of our own forces and those of the other Allies.

FINANCIAL AID TO CHINA.

In addition His Majesty's Government have also made available to the Chinese Government five millions sterling for currency stabilisation." Replying to another point Mr. Eden said that Chinese troops contributed very materially indeed towards the protracting and delaying action fought by the imperial forces in Burma. "I am happy to say that good feeling and a spirit of co-operation prevailed whenever and wherever the two armies fought side by side" (Cheers.)—Reuter.

Echo Of Pensions In Commons

LONDON, June 3.

Captain Gammans asked the Foreign Secretary in the House of Commons to-day (Wednesday): since the British Government was prepared to pay the pensions of French Civil Servants in Madagascar was he willing to reconsider his decision regarding the pensioners of the Shanghai Municipality. Mr. Eden could not accept the suggestion that the two cases were comparable and said that the offer to Madagascar was in consequence of the general offer made after the French Armistice with Germany guaranteeing to pay the pensions of officials of any colony which continued the struggle. "Such a guarantee", Mr. Eden said "would not necessarily involve payment from public fund since the territories concerned would as far as possible continue to provide the necessary revenue."—Reuter.

FURTHER SWEEPS OVER N. FRANCE

LONDON, June 3.

Two further sweeps were made over northern France late this afternoon, it is learned in London. Boston Bombers were escorted by many squadrons of Spitfires to attack docks at Cherbourg and Le'Havre. Two German fighters were destroyed during these attacks, making three for to-day. Four R. A. F. fighters are missing from the day's operations.—Reuter.

PITCHED BATTLE ON ROOF OF NASIK JAIL BARRACKS

3 Killed And 25 Injured In Fight Between Prisoners And Overseers

The Director of Information, Bombay, writes:—

Three rioters were killed and about 25 persons injured in a riot in the Nasik Road Central Prison on June 1.

The trouble started during the afternoon when Sindhi prisoners climbed on to the roof of their barracks and began to throw tiles at the sepoys and others below, presumably as a protest against their detention at Nasik.

As orders and appeals to them had no effect, the Superintendent at about 7 p. m. directed some sepoys and convict overseers to go up and dislodge the demonstrators. This led to a severe struggle and several of the overseers were injured.

Three of the Sindhis fell eleven feet from the roof to the ground and were fatally injured. Others had limbs broken in similar falls or suffered lighter injuries.

Some members of the prison staff, including the Senior Jailor, were injured. One of them had to be admitted to hospital.

Magisterial Inquiry

A Nasik message says:—

It appears that several long-term convicts belonging to Sind have been agitating for transfer from here to a Sind jail.

The District Magistrate, Mr. J. Booth, who visited the jail, has ordered a magisterial inquiry which is proceeding.

flowers or FOOD?

While the villager can get along without fruit and vegetables, because he is used to it—you certainly cannot. But if you have even the smallest of gardens, you can grow your own vegetables and fruit.

Bananas, onions and potatoes will grow almost anywhere, but you will need some green vegetable for a healthy diet. Start now to transform your garden when the Rains come.

Father Kruschen PUTS BOMBAY MAN ON HIS FEET AGAIN

"It's never too late to mend," says Father Kruschen. Consider this case for a moment. Here is a Bombay man aged 65 in the grip of rheumatism. So bad, he could not walk — was driven to bed. He saw a Father Kruschen advertisement *and this is what he writes:*

"I was in bed six weeks with terrible rheumatism. I saw a Fasher Kruschen advertisement and started taking Kruschen Salts. Now I am once again on my feet. I take Kruschen every morning and shall continue so to do."—Paghdiwalla, Bombay.

Tasteless in Tea

The secret of Kruschen's removal of every trace of bodily aches and pains is perfectly simple. The pain of rheumatism comes from myriads of needlesharp uric acid crystals. Poisons in the blood form these crystals. And the poisons are caused by congestion in the bowels, liver and kidneys. Kruschen clears and invigorates all three organs. The aperient elements in Kruschen cleanse the bowels. The hepatic elements tone up the liver. The diuretic elements flush and strengthen the kidneys. Uric acid crystals melt and are carried out of the body. Poisons have no chance to gather again. Pain goes. Lissomness returns. You feel years younger. Start right away on Kruschen, and let the famous three-fold action rid you of your rheumatism!

So cheap to buy and obtainable at all Stores, Chemists and in the bazaar.

You too can have THAT KRUSCHEN FEELING

ROYAL NAVY GOES DOWN TO Y. M. C. A. BY 3—2

In the first Division of the Harwood League, the Y.M.C.A., last year's champions, defeated the Royal Navy at the Cooperage on Wednesday by the odd goal in five. The Young Men had several new men in their team but they combined well. Only their forwards were too prone to lie offside. Otherwise they might have won by a bigger margin.

This Great Herbal Ointment HEALS Without A SCAR

Every Home Needs Its Box of ZAM-BUK.

HOWEVER careful you are, accidents do happen in the home. For instance, healthy children cause a lot of trouble with their everlasting sore knees, grazed ankles, cuts, bruises and burns. Such injuries are rarely dangerous, unless festering "sets in," and that is why you must immediately apply Zam-Buk herbal ointment. All you have to do is smear the ointment on the sore places and it will heal them up quickly and safely Thus pain is soothed, inflammation reduced and any unpleasant discharge dried up. Zam-Buk is a valuable antiseptic, which overcomes poison germs and heals without a scar. Guaranteed free from animal fat.

THE MUDDLE

Addressing a public meeting at Lucknow the other day, Pandit Jawaharlal described the present plight of Indians as being "in the midst of a stream infested by crocodiles and other deadly animals." Many will agree that there is no exaggeration in this but few agree as to what precisely should be done to get out of this multiplicity of dangers. A hundred men speak in a hundred voices, with the result that there is little definite action against any of the dangers facing the people. Some Congress leaders are publicly criticising one another. Others are asking the people to get ready for some sort of struggle that may have to be started some day. But what is the nature of the struggle? What exactly are its objectives? And how are the people to get ready for it? In so far as there are any definite answers to these questions, they hardly satisfy the people.

Wanted Definite Lead

Whatever may be the struggle that Congress or Gandhiji may start in the future, the struggle that has already been started against us by the Japanese has got to be resisted by us all with all our might and with all the unity we can command. In a way this is realised by all. But while millions are willing, in sheer self-interest or in the interest of the country, to use all the force they can against the Japanese aggressor, the Congress has enjoined on them only non-violent non-co-operation. What is worse, Government's military policy has not enabled the people in general to offer much more than non-violent resistance. It is this fact more than anything else that has led the Congress to be content with Gandhiji's advice to offer only non-violent resistance, though it is well-known that the overwhelming majority of Congressmen are not wedded to non-violence against an invader. This is clearly the worst feature of the present deadlock and needs to be attended to without any further delay. Some consensus of opinion must be arrived at on this vital issue, whatever may be the differences of view on other matters. The Congress must give a definite lead to the people to resist the invader in an organised and, when necessary, violent manner.

Settle With The League

Nor is a consensus of opinion on the question of defence impossible, if the negotiations on it between the Congress and the British Government are resumed at the point they broke down and in the same spirit they were started. It is clear from the Congress President's latest statement on the subject published on Wednesday that the negotiations with Sir Stafford Cripps broke down mainly on the Defence issue, that Congress and Sir Stafford were, at some stage of the negotiations, agreed on the principle of division of Defence responsibilities between the Minister and the Commander-in-Chief but failed to agree on the precise subjects to be transferred to the Minister. It was a pity that Sir Stafford lost patience at the crucial stage of the negotiations and made a speedy agreement impossible by declaring roundly that nothing could be added to the list of the Minister's subjects, as previously approved by His Majesty's Government. Worse still, he went way abruptly without leaving any room for any continuance of the negotiations. Sir Stafford pleaded that no agreement was possible between India and Britain because there was no agreement between the Congress and League. If this is also the British Government's view they must in consistency declare now unequivocally that they are prepared to transfer power to the people of India if there is an agreement between the Congress and the League. Such a declaration may be followed by fresh negotiations between the Congress, the League and the Government. In view of sharp controversies regarding the future, the fresh negotiations should be for an interim wartime National Government without any prejudice to any party's ultimate aims. As the Congress has always stood for transfer of power to the people and not to itself, it will not create any difficulty in the distribution of seats in the Central Government. We shall not be surprised if the Congress should ask Mr. Jinnah to form a Cabinet. We need not add that, apart from the formation of a National Government substantially in charge of National Defence, at least a temporary understanding between the Congress and the League is immediately necessary. We would, therefore, appeal to the Congress President to lose no more time in giving effect to his own suggestion of opening negotiations with the League. The Congress has refrained from approving the scheme of Pakistan. But if it is necessary for the purpose of opening negotiations with the League, Congress may well say again, with Gandhiji, that "the Muslims must have the same right of self-determination that the rest of India has" and that, if they insist on Pakistan, Congress, true to its creed of attaining Swaraj by non-violent means, will not resist them by force.

Doubly Objectionable

A careful examination of the facts concerned convinces us that the forfeiture of the security of the "National Herald" was utterly unwarranted. The forfeiture was particularly objectionable because before deciding upon it, the U. P. Government had not consulted the Local Press Advisory Committee in accordance with the Gentlemen's Agreement with the Newspapers Editors' Conference. It appears that a meeting of the Local Committee was held on the morning of the 26th May but Government did not tell the Committee of their intention, though they came out with their forfeiture order on the same afternoon. We also understand that the Committee considered, at two or three meetings, the articles in the "Herald" objected to by the Government and declared them to be unexceptionable. The Government ought at least to have consulted the Committee even if they were determined to flout its advice.

The Government have since demanded fresh securities of Rs. 6,000 each from the Editor of the "Herald" and the Keeper of the "Herald" Press. This must mean a heavy strain on our contemporary's resources, considering the various troubles it has recently gone through in vindicating boldly the liberties of the Press and the people of India. It, therefore, behoves the people to mark their appreciation of its valuable services in the past by helping it in its present distress, so that it may continue to serve as efficiently as before the cause of the country's freedom. And this is the duty of the people not only of the United Provinces but also of the country as a whole. Government should also be made to realise that their blow to a Congress paper like the "National Herald" is a blow to the Congress and the nation. Pandit Jawaharlal has already issued an appeal for help to the paper. The friends of the "Herald" should hasten to send to it their contributions, large or small.

A Feat Repeated

Within forty-eight hours of the first four figure air raid in history, the British again sent out on Monday night a force of over 1,000 bombers with the Ruhr as the objective this time. Although the principal target was Essen the area of R. A. F. operations was not so concentrated as in the case of Cologne. The damage, therefore, would have been more extensive but less intensive than in Cologne. The main feature of this raid is that, coming so soon after the first, it has constituted a complete surprise. In fact, the feat, a London report says, "staggered even senior officers of the service." But this fact also emphasises the extreme difficulty, a tthis stage, of organising such raids frequently. And Mr. Churchill did well to make it clear that all raids in the immediate future will not be above the four figure scale. There is, however, no doubt that the two raids have been most successful pioneering operations that have opened a distinctly new phase in the war against Germany. By the way, it is announced that the air force which covered the main bombing operations on Monday night included aircraft of the newly created Army Operational Command which is essentially an integral part of the land forces. There may not be any material or immediate significance in the active emergence of this force. But, coupled with intensified daylight activities of R. A. F. over occupied Europe, the fact does excite curiority.

Frankly Speaking

Tributes To 8th Army

After reading General Auchinleck's statement to Parliament, Mr. Churchill expressed himself "more than satisfied" at the course the Libyan battle had taken so far. Since then the King also has sent his congratulations to General Auchinleck and General Ritchie. The Eighth Army and its leaders, and particularly the Allied air force, deserve the tributes that have been paid to them. The first round has been well fought. But, as General Auchinleck himself says, the battle is by no means over and the issue still hangs in the balance. General Rommel and his Panzers remain a danger yet. And latest reports suggest that the danger is not inconsiderable.

Danger Remains

The Axis leader has succeeded in withdrawing many of his tanks and a good deal of his transport through the two gaps, while the rest of his forces have actually launced an offensive operation to the east of the Allied line. What is even more noteworthy is that the Germans have further widened at least one of the two gaps which they are defending with a heavy artillery screen. If the Eighth Army succeeds in its present effort to control the gap, Axis forces to the east can yet be caught and liquidated, which will constitute a considerable victory because it will certainly cripple General Rommel's total strength. This is not an impossible achievement because these Axis forces weakened by the withdrawals westwards and inadequately supplied have to deal with practically the full concentrated strength of British armoured divisions. The latter, moreover, are being powerfully supported by their air force which has worked havoc with the enemy and is certain to continue its great work against both columns of General Rommel.

Turkey And Nazis

The Germans have, under an agreement signed in 1939, given the Turkish Government credit of 100 million marks for the purchase of arms in Germany. But no significance in terms of any possible danger to the Allied cause attaches to this arrangement. Turkish policy is governed by certain fundamental immutable principles. Turkey is prepared to trade with any country which trades with her on strictly business lines and subject very emphatically to two political conditions. They are these: She cannot compromise her neutrality in the interest of any belligerent and in no circumstances will she allow her national sovereignty and territorial integrity to be jeopardised, directly or indirectly. Turkey will fight but not submit.

Is It Wise?

During the last few days there appears to have occurred—according to French reports—a revival of activity by the British in Madagascar. The R. A. F. so it is stated, raided a number of Vichy-French aerodromes causing some damage and also shooting down a Vichy plane. This has been followed by the occupation of an inland town south of Diego Suarez. If the French reports are correct, we wonder why the British made the move. In view particularly of the delicate negotiations going on in Martinique and of Italian demands upon Vichy, it would have been wiser not to hurt Vichy just yet unless, of course, the British had reason to believe that M. Laval was planning to challenge their occupation of Diego Suarez.

A. R. P. And Cement

The A.R.P. issue of the "Indian Concrete Journal" published by the Cement Marketing Company of India is a bumper number of 52 pages of reading matter (besides advertisements) printed and got up in the excellent manner usually to be expected from this journal. The issue contains a number of useful and informative articles either culled from technical journals or written specially for it by experts dealing with a wide though allied range of subjects such as anatomy of a bomb, its destructive powers, building protection by demolition, splinter-proof walling, construction of various types of shelters, proper methods of building sand bag barricades and other ancillary matters not excluding shelter aesthetics. All articles are amply illustrated with photographs, sketches and charts. As Sir Roger Lumley, the Governor of Bombay, in a foreword says: "There are few materials, more essential, or more widely used, for war purposes than cement" and with a shrewd eye on business, practically every contribution in the journal has something or other to tell us about the merits and uses of cement. The articles are somewhat technical and not written in a popular form, nor can the price of the journal be called popular (it costs one rupee). The article on bomb damage to notable buildings giving vivid photographs of the destruction wrought to such famous buildings as the Lambeth Palace, the Coventry Cathedral, the Guildhall etc., has a poignant and human interest.

WATCH THE U. S. MISSION

G. L. Mehta On Pitfalls And Dangers Of Hush-Hush

BOMBAY, Wednesday.

Mr. G. L. Mehta, President, Federation of Indian Chambers of Commerce and Industry, observes, in the course of a statement:—

"The report of the American Technical Mission is at present under the consideration of the Government of India. It is singularly unfortunate that despite the demand of the Indian commercial interests and the public, this report is being treated as a sealed book as was the report of the Mission sent out by the British Ministry of Supply, popularly known as the Roger Mission. Without divulging those portions of the report which may contain information of a secret nature adequate information could and should be given to the public for an intelligent appreciation of the views and recommendations of the Report. Nor is there any reason why the Government should not take into confidence representative Indian industrial opinion in this matter.

The Indian public is not yet aware, in fact, as to what were the recommendations of the Roger Mission nor what recommendations were accepted and rejected by the authorities or the grounds for such rejection. It is essential for the Government to take Indian industrial and commercial interests into full confidence as their co-operation is necessary for the success of any scheme of increasing and expanding industrial production for war purposes.

NOT THE WAY TO MOBILISE

It is mentioned, for example, that the Mission has dealt with the question of administrative reorganization for maximising war output. It is widely believed that the Mission was impressed with the need of establishing a Department of Production. It is true that no mere administrative reshuffling can mobilise all the industrial power or utilise the full potentialities of India. The difficulties are far more fundamental. Nevertheless, the Indian public would be interested to learn the mind of an independent authority on this important subject of governmental re-organisation which surely there is no reason to treat as a military secret.

"It appears from the press reports and statements of the members of the Mission that its aim has been a somewhat subsidiary and narrow one, namely, that of maximising war production and that it has, therefore, been concerned with a short-range policy. No clear-cut demarcation is, however, possible between war industries strictly so-called and other industries not only because of the complexity of industrial production, but also because of the need for maintaining civil life and economic relations; more especially is such differentiation unjustified during a total war. On the other hand, the Governments of the Dominions of the British Commonwealth have repeatedly made clear that in developing war production, they are laying the foundations of future industrial development and it is in this spirit that the Government in India is expected to shape their industrial policy during the war.

SHORT-RANGE POLICY

It would be of interest to know, for example, what has been the view of the American Mission regarding the needs and possibilities of developing vital industries in India like automobile, shipbuilding, heavy chemicals, tanks, locomotives, etc. It has been stated in some reports that the Technical Mission prefers concentration on ship-repairing rather than develop shipbuilding in India. That is an illustration of the short-range policy favoured by the Mission which wishes to realise immediate objectives while depending for long-range assistance on the American programme of war production.

Yet Australia has not been precluded from developing shipbuilding and automobile industries during the war while transport difficulties render necessary the largest possible development of Indian self-sufficiency even for war purposes. India has been deprived in the past of vital and key industries for reasons into which it is unnecessary to enter here, and it would be deplorable if war exigencies are to continue to prevent the establishment or development of such industries at the present time.

LEASE-LEND ARRANGEMENTS

"While the recommendations of the Mission seem to have a specific object in view, it is apparent that post-war conditions of international trade and post-war economic relations are of no small concern to the United States.

Lease-Lend arrangements have been engaging the attention of Indian commercial opinion which has insisted that India should be treated in exactly the same manner as the United Kingdom so far as supply of goods and credit transactions are concerned. "Lease-Lend" is sure to revolutionise economic conditions and trade relations in the post-war period and it is essential for Indian public opinion to remain alert and vigilant lest the interests of India suffer in any way. Nor is that all. Agreements or treaties entered into by the United Kingdom for post-war conditions should also be carefully watched.

THAT ANGLO-AMERICAN AGREEMENT

It is stated for example, that there is already an Anglo-American agreement to govern post-war trade relations which vitally concerns India. This agreement has not hitherto been published in India although it is necessary to find out whether India is a party to it and it is time the Government of India publish this document for the information of the Indian public. It is imperative that the Government should not commit themselves to any trade or economic agreement affecting or involving India either now or in the post-war period without fully consulting Indian opinion and in consonance with Indian policy and should, without exception, publish every such agreement or treaty, as this is a matter of vital concern to India."

CHINA'S INTEREST IN INDIA

Arthur Moore's Impressions Of Chungking

CALCUTTA, June 3.

The Chinese are taking an intense interest in India in relation to the war, said Mr. Arthur Moore, Editor of the "Statesman", broadcasting to-night on the impressions of his recent visit to Chungking. Mr. Moore said that the Chinese regard India as a bulwark and they long to hear that internal differences are to be dropped and that there is to be one great national front.

Referring to the disappointments which the Chinese have had since the struggle became a world war—a thing China had always believed it would become—Mr. Moore said he did not find the Chinese disappointed, sore or impatient There seemed to be a large understanding of the initial difficulties of both America and Britain as well as no doubt whatever that help on a grand triumphant scale would eventually certainly come. "China", said Mr. Moore, "is sorely in need of increasing evidence of air support and it is only by ever increasing air power that sea and road communications can later be restored, as restored they will be".

Speaking of the war spirit in Chungking, Mr. Moore said that despite five years' fighting, the people are undaunted and unwearied. Their A. R. P. system is wonderful and the terrible sufferings they once endured are not likely to be repeated if bombing recurs.—A. P.

ADULT FRANCHISE AS PLEA

Further Extension Of Corporation's Life

The Director of Information, Bombay, writes:—

The life of the Bombay Municipal Corporation has been extended for one year until March 31, 1944.

The term of its office was originally due to expire on March 31, 1942, but was extended till March 31, 1943. In order to hold elections on the basis of adult franchise, which was introduced by Bombay Act XIII of 1938, it is necessary to amend the City of Bombay Municipal Act 1888, in respect of qualifications of voters, preparation of electoral rolls, conduct of elections and redistribution of wards.

Proposals for the necessary amendments have been prepared by the Municipal Commissioner in the light of the experience gained in the general elections of 1939 and they are under the consideration of the Corporation. It will take a considerable time for the Corporation and the Government to come to final conclusions in regard to the proposed amendments.

In particular, detailed proposals for the amendment of the Act in respect of the redistribution of wards can be framed only after the report of the census of 1941 is published. The redistribution of wards is essential as the number of voters is expected to be over 650,000 and in some of the more thickly populated wards the number will be as great as 50,000 if the old number of wards is retained.

The extension of the life of the Corporation, therefore, was considered necessary and the City of Bombay Municipal Corporation (Extension of Term) Act, 1941, has been amended accordingly.

"Opposed To All Notions Of Justice"

MADRAS, June 3.

The "Hindu" writes: "The high-handed action of the U. P. Government, in forfeiting the security of Rs. 6,000 taken from the "National Herald" in 1940 has been foiled by a demand for a fresh security amounting to double that amount. This action of the Provincial Government is not only at variance with the spirit of the Delhi Agreement to which the Government of India reaffirmed their adherence recently, it is opposed to all notions of justice and subversive of the right of fair comment and has as such, been denounced by all sections of the press."—A. Civil Defence In Bombay

AGREEMENT BETWEEN GOVT. & CORPORATION

The Corporation will consider to-day the report of the representatives of the Government to discuss the measures to be adopted in relation to the A.R.P. and Civil Defence of the city.

The representatives of the Corporation met the representatives of Government, headed by Mr. C. H. Bristow, Chief Adviser to the Governor, at the Secretariat, Bombay, on February 23, and discussed with them several questions arising out of A.R.P. and Civil Defence measures in the City.

They drew Government's attention to the serious condition of panic prevailing in the City and pointed out that public confidence could only by restored by reposing adequate confidence in those men and women who represented the citizens of Bombay, and the Corporation being the principal body which could claim to possess that confidence of the public, it was necessary that Government should apprise the Corporation of all measures taken by Government in relation to A.R.P. and Civil Defence.

The representatives therefore suggested a direct representation to the Corporation on the body controlling and regulating these measures and pointed out that inasmuch as the Corporation were asked to pay or to work for the same, their request for such a representation was more than justified.

With regard to the question of sharing financial liability with Government for expenditure on A.R.P. and Civil Defence measures, the representatives made it clear that while Government were primarily and legally responsible for the defence of the City from enemy action, the Corporation realizing the gravity of the situation might, as a gesture of co-operation, be prepared to share a certain amount of expenditure and responsibility with Government; they also brought to the notice of Government the limitations fixed by statute on the Corporation.

As a result of a further interview by the Mayor and the Commissioner, with Mr C. H Bristow, Chief Adviser to the Governor, and subsequently with Mr H. F. Knight, Adviser to the Governor, the scheme was modified as per the accompanying Memorandum.

The scheme contemplates that the expenditure on items mentioned under Article I will be borne entirely by Government, that on items mentioned under Article II by the Municipality, that on items mentioned in Article III will be shared equally between the Municipality and Government, and that on items under Article IV, the Municipality will bear such cost as together with the Municipal half share in Article III, amounts, in respect of expenditure incurred in the financial years 1941-42 and 1942-43, to a sum of Rs. 10 lakhs plus an amount equal to any reduction hereafter brought into effect in the statutory contribution of the Municipality in 1942-43 to the General Account of the Improvement schemes under Clause (4), Rule 5, Schedule BB of the City of Bombay Municipal Act, 1888, the balance of the cost being borne by Government.

The representatives realize that this involves a heavy financial burden on the Municipal exchequer but considering the very peculiar circumstances and the necessity of taking quick and efficient measures for the protection of civic services and amenities, they recommend that the scheme outlined in the Government memorandum be approved subject to the following modification and the Commissioner be authorized to inform Government accordingly:—

'That Clause (b) of Article IV in the Scheme be modified so as to make it clear that subject to the maximum total liability of the Corporation fixed therein, the expenditure on the various items enumerated in the said Article IV shall also be shared equally by Government and the Corporation, that at no stage the Municipal share of the cost of any of the items will exceed the amount contributed by Government and that when the stage is reached that the total amount of the Corporation's share of expenditure on the items enumerated in Articles III and IV is equal to the total maximum limit of the Corporation's liability, the balance of the expenditure on each of the items enumerated in Article IV will be borne by Government'

Article 1 refers to the scheme of Water rationing, etc., which cost will be borne by the Government. Article II refers to the protection of Municipal properties which cost will be borne by the Municipality.

Under Article III the Government and the Municipality will bear equally the share the cost of the items the protection of Water supply, sewrage, etc.

Article IV provides that Government and the Municipality will share in a manner specified in Clause B the cost of certain items such as Water rationing, sinking of the wells, etc.

In reply to the representation of the Municipal Corporation, the Government has replied:

Government is now therefore prepared to set up a Joint Civil Defence Committee for the City of Bombay, which will undertake the following 14 activities mentioned:—

Instructing citizens in precautionary measures to be taken against enemy attacks and training them for Civil Defence work;

Propaganda in support of Civil Defence Measures;

The organization of First-Aid Training and First-Aid posts; organization of ambulance work;

Formation of volunteer rescue parties to supplement the Rescue Service;

Organization and running of Rest Camps for the use of people rendered homeless as a result of enemy action;

Formation of voluntary fire-fighting parties to supplement the Municipal Fire Brigade and the Auxiliary Fire Service;

The organization and training of a corps of volunteers to keep the essential services working in an emergency;

Recruitment and training of fire-watching parties;

To supplement the arrangements made by Government for the distribution of food supplies and other necessities of life in times of emergency;

Arrangements for the disposal of the dead;

The clearance of debris and the demolition of buildings rendered dangerous by hostile attack;

The organization of assistance to persons leaving the City in the event of a large exodus;

Protection and augmentation of water supply;

Organization of sanitary arrangements in the event of a breakdown.

TÊTE-À-TÊTE

WITHOUT COMMENT—

But last night an R. A. F. commander made a broadcast describing the air-crews' part in these terrible raids and as he did so there shone out from his words those qualities of courage, modesty and quiet sense of duty of service which are the hall-mark of the English gentleman.

The Libyan battle, too, has fired the patriotic pride of our Anglo-Indian contemporary's London Correspondent, and so ".....the Germans are no match for the Britishers, whose every sporting instinct swells their courage and military skill, upholds their spirits and gives them dash and enterprise."

Auchinleck must immediately apologise to this sporting compatriot of his for suggesting in his statement that the brunt of Rommel's opening assault was mainly borne by Indians, Free French and South Africans.

* * *

In the House of Commons Mr Attlee again pleaded unavoidable difficulties in the preparation of any authoritative report on Malaya and Singapore.

Why doesn't he publish the well-known truth and have done with it? And in any case why must M.P.'s insist on a formal confession of the obvious? The wasteful inanity of the whole demand and its evasion are becoming tiresome.

* * *

Mr. Attlee has solemnly reaffirmed the British Government's determination to give all possible aid to China.

You don't need a definition of the word "determination", do you?

A lease-lend agreement has now been signed at Washington by Mr. Cordell-Hull and Mr. T. V. Soong, the Chinese Ambassador.

Business first as usual, eh?

T. V. Soong has, we think, done better by way of offering effective temptation to the U.S.A.

A Melbourne report alleges that Mr. Curtin has confessed himself as confident that "Japan finds her most southerly venture beyond her capacity."

This is, too, sensational a charge against Mr. Curtin to be real. We, at any rate, want further confirmation before accepting the authenticity of the Melbourne report about him.

The Germans have given Turkey a credit of 100 million marks (only 5 million pounds) for the purchase of war materials in Germany.

If they mean it they are going in for a very bad investment, indeed.

The Admiralty announces that the German claims to have sunk 18 ships of the latest big convoy to Russia and damaged several others represent an exaggeration of over 175 per cent.

We don't regard this as at all interesting or clever. We don't know mathematics and we don't know why the Admiralty should supply all the tedious data for an answer instead of giving the simple answer. By the way, what IS the answer?

Lord Halifax demands that the peace treaty should be "a stiff hard peace to make sure that Germany will not do this again."

But should it not also ensure with equal care that Lord Halifax doesn't do that again? Eh? Oh, we mean enjoy a sportsman's hospitality at Marshal Goering's hunting lodge.

All the guests except one had left the dining room, and he was busy emptyng his pockets of the spoons.

The host returned to the room suddenly and found his guest there.

"So that's your game!" he exclaimed. "What have you to say for yourself?"

"I can assure you it was all a mistake,' replied the guest soothingly.

"A mistake?"

"Yes,' explained the guest, "I thought they were real silver.

HEAVY SELLING IN N. Y. COTTON MARKET

BUYERS' CONFIDENCE SHAKEN

Bombay, June 3.

The recent action of the New York cotton market clearly indicates loss of confidence. It is true that the consumption continues at a record level but the Washington administration is determined to check advance. However heavy liquidation is improving the technical situation of the market.

There was resumption of July liquidation, New Orleans selling and uncovering of stop-loss orders disclosed disappointing trade demand with buyers' confidence shaken by nervous outside uncertainties and expectations of increased hedging against recent C.C.C. allotments.

At the opening July was 5 points down at 18.79 and improved to 18.83 which was the highest level. Later on there was heavy selling and July declined to 18.43 which was the lowest level for the day. The market closed at a net decline of 23 to 24 points. Spot cotton prices closed 28 points down at 20.07c. per lb.

NEW ORLEANS MARKET

The New Orleans cotton futures market was again easy on increased selling and closed at a decline of 24 to 26 points. Spot cotton prices closed 25 points down at 18.97c per lb.

LOCAL SITUATION

Messrs. Anandilal Podar and Co. state:— On Tuesday, cotton opened firm ignoring American weakness and then, on continued speculative buying, prices improved further. However, higher levels encountered heavy realising by loading operators. Sentiment was partly influenced by the strength in linseed, groundnuts and shares. Closing tone of cotton was steady but somewhat hesitant on two-sided war reports. Ready market maintained its normal demand but imported cotton basis were wavering fearing repercussions of American weakness. Linseed and groundnuts were firm on speculative buying anticipating an increase in British Ministry's buying limit. Shares were highly buoyant on war reports absorbing all realising.

BHADRAVATHI FIRING ECHO IN MYSORE ASSEMBLY

Congress Leader Moves Adjournment

BANGALORE, June 2.

An echo of the police firing on a mob of labourers at Bhadravathi (about 200 miles from Bangalore) on May 3, last was heard on the Mysore Representative Assembly this afternoon when the Leader of the Congress Party in the Assembly moved an adjournment motion to discuss the circumstances leading to the incident. The mover laid the entire blame for the incident on Government and observed that the renewal of the prohibitory order under Sec. 30 of the Mysore Police Act banning holding of meetings in Bhadravathi was unjustifiable when peaceful atmosphere prevailed in the area. He urged that an impartial inquiry should be instituted.

LAW MINISTER EXPLAINS.

Mr. A. V. Ramanathan, Minister for Law, replying assured the House that it was the intention of the Government to avoid as far as possible the opening of fire to bring extreme situations under control. On the recommendations of the Viduraswatha Inquiry Committee the Government had sent a special officer to Lahore for training in the use of tear gas and had also sanctioned a sum of Rs. 10,000 for the purchase of tear gas equipment, but owing to present situation equipment was not yet made available to them. At this stage the time allotted for discussion having come to a close, the president declared the motion talked out.—A. P.

Intestate Succession In Hindu Law

NEW DELHI, June 3.

The Bill to amend and codify the Hindu Law relating to intestate succession published in the gazette this week has three main features, namely, (1) it embodies a common law of intestate succession for all Hindus in British India, (2) it removes the sex disqualification by which Hindu women in general have heretofore been precluded from inheriting property in various parts of India and (3) it abolishes the Hindu woman's limited estate.—A. P.

Mysore E. S. (M.) Bill

BANGALORE, June 2.

The Mysore Representative Assembly today passed the Mysore Essential Service (Maintenance) Bill by 146 votes to 126, the Congress Party in the House voting 'en bloc' against the measure on the stand that the bill sought to confer enormous powers on the Government in determining essential services.

Bombay Mourns Death Of Sir Ibrahim

GLOWING TRIBUTE TO OUTSTANDING PERSONALITY WHO SERVED INDIA

Glowing tributes were paid to the memory of the late Sir Ibrahim Rahimtoola in the Municipal Corporation on Wednesday by His Worship the Mayor and the councillors. His Worship the Mayor referred to the sad death of Sir Ibrahim Rahimtoola, and observed:

"Sir Ibrahim Rahimtoola passed away on Monday night the 1st June, 1942, at an advanced age of 80. He was one of the distinguished citizens who contributed to the greatness of the City. As a public man the greater part of Sir Ibrahim's career was devoted to the work in the Corporation. After the Corporation, Sir Ibrahim entered of course a wider field and was successively President of the Bombay Legislative Council as it was then called and also the Central Legislature and in all these places he ever maintained a judicial and an independent outlook and contributed in no small measure to the forming of the high traditions attached to these bodies. It is impossible to exaggerate the good work done by Sir Ibrahim Rahimtoola. His was a life full of years, full of honnours and full of service.

Both by precept and example, Sir Ibrahim was a protagonist of Hindu-Muslim unity and had numerous friends in the sister community. He was also one of the builders of modern Bombay in its civic, social and political greatness.

AN OUTSTANDING FIGURE

Mr. S. K. Patil then moved:

"That the Corporation have learnt with deep regret of the sad death on Monday, the 1st June, 1942, of Sir Ibrahim Rahimtoola, G.B.E., K.C.S.I., C.I.E.; who was a member of the Corporation for a period of about 26 years from 1892 to 1918 and its President for the year 1899-1900; a member of the Standing Committee for 10 years and its Chairman for the year 1898-99; a member of the Joint Schools Committee and the Schools Committee of the Corporation for over 14 years and a representative of the Corporation on the Board of Trustees for the Improvement of the City of Bombay for 26 years and who in these and various other capacities rendered signal services to the City and the country. Throughout Sir Ibrahim's long and active life he was associated with many activities calculated to promote the advancement of the City and the country and his death has removed an outstanding figure in the public life of the city and the country.

That a copy of this Resolution be forwarded to Lady Rahimtoola and other members of the family of the deceased, with an expression of the Corporation's sympathy in their sad bereavement.

That as a mark of respect to the memory of the deceased the Corporation do now adjourn transacting any business to-day."

GLOWING TRIBUTES

Mr. Patil said the late Sir Ibrahim Rahimtoola was an outstanding personality in the public life. It was he, who sponsored the cause of Primary Education for which the city is much grateful to him.

Mr. A. P. Sabavala in seconding the resolution referred to the genial nature of the deceased and said though he was 80 years old, he felt himself in the prime of youth.

Mr. B. N. Karanjia spoke on the keen interest the deceased evinced in the Municipal Corporation as well as the Indian Merchants Chamber.

Mr. Jamnadas Dwarkadas related some of his personal reminiscences as a member of the Fiscal Commission of which the late Sir Ibrahim Rahimtoola was the President, and said he was a shining example to all communities in India in courtesy and kindness.

Prof. S. R. Davar said though Sir Ibrahim was a capitalist and a Director of several companies, he was the first and foremost to safeguarded the interests of the shareholders.

Mr. Nagindas T. Master spoke on the interest the late Sir Ibrahim took in the burning questions of the day in India such as polines, education and business.

Dr. Alban DeSouza said the masses will be always grateful to Sir Ibrahim for introducing the Primary Education Act.

Dr. G. R. A. Shaikh, Mr. S. H. Darvesh and Mr. M. U. Rajab further supported the proposition which was carried, all standing as a mark of respect.

The House then adjourned till to-day (Thursday) 3-40 p.m.

IN STANDING COMMITTEE

The Standing Committee of the Municipal Corporation also passed a resolution of condolence on Wednesday when Mr. M. G. Kapadia, the Chairman, Mr. K. H. Goregaokar, Mr. I. S. Patel and Dr. G. R. A. Shaikh referred to the great and unique services rendered by the late Sir Ibrahim

CITY MOURNS HIS DEATH

The death of Sir Ibrahim Rahimtoola is mourned by all sections of people in the city.

Mr. B. J. Wadia, Vice-Chancellor of the Bombay University, in the course of an interview said:—

"Sir Ibrahim was a member of the Governor's Executive Council at a time when I was the Principal of the Government Law College in Bombay. He was always kind and considerate towards the college and had the interests of higher education always at heart. In Sir Ibrahim we have lost not only a great politician but also a great educationist who did much for the progress of education in the Province."

HE DIED FULL OF YEARS AND HONOUR

Mr. Yusuf Meherally, the Mayor of Bombay, in the course of an interview to the "Chronicle" said:

"Sir Ibrahim was one of the greatest sons of Bombay. His services to the Municipal Corporation can only be described in the language of the superlatives and his name will be linked with those of Sir Pherozeshah Mehta, Sir Dinsha Wacha and the late Mr. Vithalbhai Patel. Sir Ibrahim was a great advocate of Hindu-Muslim unity. Though a man of moderate views, he was a fearless critic of Government. His work on the Indian Fiscal Commission was very valuable. He has died full of years and honour and his career will be an inspiration to his countrymen."

A "GURU"

Mr. M. R. A. Baig, the Sheriff of Bombay, said:

"A 'chela' of legendary figures such as was Sir Pherozeshah Mehta —Sir Ibrahim Rahimtoola was a 'guru' that we of this generation might well follow. His whole life was a lesson in public service and nationalism and the evening of his life must have been gladdened by the memories of his many achievements. His light has gone out but the fires that he has lit will burn on to illuminate the surrounding gloom."

GREAT LOSS TO INDIA

Sir Purshottamdas Thakurdas stated:—

"Sir Ibrahim's death is a great loss not only to Bombay but to all India and to the commercial community in particular. I always regarded Sir Ibrahim as one of the shrewdest and clear-headed men in India."

Mr. Jamnadas Mehta observed -

"Without having entered the portals of any University, Sir Ibrahim drank deep of literature and learning. He had 100 per cent commonsense and he was one of those rare personalities who never ventured to speak or write in the public without being sure of his facts. This made him great and that way lies greatness."

Calcutta Corporation's Tribute

CALCUTTA, June 3.

The Calcutta Corporation at its meeting this evening condoled the deaths of Sir Ibrahim Rahimtoola and Rai Bahadur Ramaprasad Chanda.

In paying his tributes to the memory of Sir Ibrahim, the Mayor, Mr. Hemchandra Naskar, said that as a business magnate, as a far-sighted politician and statesman and as an organiser of industries the deceased had left an indelible impress of his personality. His many-sided activities bore testimony to his versatility.—A.P.

Real Nationalist

HYDERABAD, (Dn.), June 3.

Sir Mohamed Yaqub, in a statement on the death of Sir Ibrahim Rahimtoola says:—"By the sad death of Sir Ibrahim Rahimtoola a great landmark was removed from India's road to her political goal. Sir Ibrahim was one of the most far-sighted statesmen and his contribution to the political movement was great and valuable. He was a real nationalist in the real sense of the word and an enthusiastic devotee of Mother India. He leaves behind him a record of public work which our youth should emulate and follow."—United Press.

IRREPARABLE LOSS.

POONA, June 3.

"The death of Sir Ibrahim Rahimtullah is an irreparable loss to the Muslim community", said Mculvi Raffiuddin Ahmed, Ex-Education Minister of Bombay. Sir Raffiuddin added: Sir Ibrahim Rahimtullah was my oldest colleague in public life. He was a staunch supporter of separate electorates unlike Mr. Jinnah who was bitterly opposed to them.—A. P.

Libel Suit Against "New Masses"

Canadian Ex-Minister Claims 1,000,000 Dollars

OTTAWA, (By Mail.)

James H. R. Cromwell, former Minister to Canada has filed a suit for 1,000,000 dollars damages in the Federal Court, charging that Mr. Bruce Minton, a journalist, in an article published in the "New Masses" had libellously called him an "Appeaser, a Munichman and slanderer of President Roosevelt". The defendants are the publishers of "New Masses" and Mr. Bruce Minton the author of the article.

Cromwell's complaint alleged that he had been referred to in the magazine as "violently pro-ally" when he was Minister to Canada and before Germany attacked Russia. The new charges, it was set forth, were published in an article under the title "Appeasers' Who's Who" in February 1942 issue.

He asserted that before the article was published he enjoyed a very high reputation and association with persons of high rank and position and the article had damaged his public life to a great extent. He alleged that Minton story was maliciously and falsely attributed to him. He was labelled wrongly as "Washington's Clivedon Set of Appeasers". —India Press Service.

132 EXECUCUTIONS!

Heydrich Attack Sequel

LONDON, June 3.

The number of people executed following the attack upon Heydrich is now 132 including 23 women. Delay in announcing the latest executions is believed to be due to the German's desire not to spoil the effect of the demonstration organized by the German-controlled Czech Government yesterday indicating popular disapproval of the attack.—Reuter.

The Institute of Roman Studies is preparing modern dictionaries for that day. But the question of new pronunciation has not yet been solved.—India Press Service.

LEGISLATURE WELCOMES PRESIDENT QUEZON

WASHINGTON, June 3.

President Quezon of the Philippines received an official welcome in the House of Representatives here on Tuesday.

Standing beside the Speaker in the floodlit Chamber President Quezon who represented the Philippines in the house for seven years was obviously moved by the warmth of his reception.

He gave a pledge that Filipinos would fight on till victory was won and "do more than their duty by standing by the United States".—Reuter.

SECRET ARMY TO OVERTHROW UNION GOVT.

48 Persons Arrested With Documents In South Africa

JOHANNESBURG, June 2.

The existence of a secret army to overthrow the present Union Government was alleged by the prosecutor when the preparatory examination began in Johannesburg to-day of 48 persons accused of high treason.

The prosecutor said the Crown would show that all were members of an organisation called storm troops which was a section of the Osserwabrandwag, a Nazi political organisation.

Efforts were made to communicate with the enemy or secret enemy agents in Lourenco Marques to obtain arms and ammunition. They were instructed to commit sabotage.

Secret military documents which could be of great use to an enemy power had been found in possession of the accused the prosecutor added.—Reuter.

TO FREE ITALIANS FROM FASCISM

U. S. A's Assurances

WASHINGTON, June 3.

The liberation of the Italian people from Mussolini and his Fascist group is one of the main objectives of the United Nations, Mr. Dean Acheson Assistant Secretary of State, told a meeting of the Italian-American labour council. He declared: "Victory for America means freedom for Italy."

The "New York Times" said that it was indicated that Italy under certain conditions may receive treatment different from that which Mr. Welles promised Germany on Saturday. The "Tribune" said that the speech was regarded as more than of ordinary importance and believed to be an appeal to Italy to take advantage of the opportunity to eliminate itself from the nations accountable for the war.—Reuter.

Mexico And Britain Have Identical Cause

CAMACHO ASSURES CHURCHILL

MEXICO CITY, June 3.

In reply to a message from Mr. Churchill congratulating him on Mexico's entry into the war, President Avila Camacho the Mexican President says: "Mexico is deeply satisfied to be fighting in the same cause as the heroic British people." To President Roosevelt he said: "Mexico is proud to associate herself with the free nations which like the United States are dedicating all their energies, resources and heroism to assure the triumph of freedom."—Reuter.

BRITAIN SATISFIED

LONDON, June 3.

The British Minister in Mexico City, yesterday morning delivered to the President of Mexico the following message from the British Government, "His Majesty's Government learned with deep satisfaction the decision of the Mexican Government to declare war in defence of their honour and the rights of mankind. At this solemn moment in Mexican history and confident of victory His Majesty's Government welcome the people of Mexico as comrades of the nations whose determination to create a world of freedom has found fearless and eloquent expression in the mouths of Mexican statesmen."—Reuter.

The Half-Column By "Dim"

Dr. Ambedkar is shortly to bring out another book, which from all accounts appears to be a very interesting affair. The doctor is a hardworker and a prolific writer.

The Oxford Pamphlets on world affairs has brought out a pamphlet on "China." It is No. 54. So I presume there were 53 other more important topics on world affairs. The author is Prof. Roxby—a Geography Professor of Liverpool. That is the trouble. Some people still can't see China as anything more than a mere geographical expression. But Prof. Roxby has travelled extensively in the Far East and is a well-known authority on the subject. Prof. Roxby sums up by saying:

"The European and the Far Eastern conflicts are now merging into a single World War. The issues at stake in them have been fundamentally the same from the outset. China, no less than the Western democracies, is fighting for freedom to develop upon her own lines and to preserve the essential values of her civilization. Some of these values particularly the emphasis, throughout the whole range of Chinese thought and philosophy, on the power of ethical and moral ideas as distinct from material force and on harmony and reason as the principles which should govern all human relationships, can contribute greatly to the building of a better world order. In both conflicts, also there is the implication that far-reaching social reconstruction is at once the condition and the consequence of victory. Potentially China is one of the greatest of the world's democracies, and it is difficult to overestimate the significance of its future role. Its attitude and outlook will be largely shaped by the character and sincerity of the help which it receives from Russia, Great Britain and the United States, not only in the throes of its present struggle for existence, but in the critical years which will follow."

Iron Crosses Miss Their Destination

MOSCOW, June 3.

A German Lieutenant Colonel motoring to the front with 200 Iron Crosses for soldiers who had distinguished themselves fell into the hands of the Russians when his driver lost his way in the night, relates the Soviet News Agency.

His Aide de Camp was killed, his Orderly ran away and the driver hid under the seat.

The Lieut.-Colonel seeing himself abandoned put up his hands and was captured together with the Iron Crosses.

Fascist Editor Murdered

VICHY, June 3.

The Chief Editor of the newspaper "Cri Du Peuple", Albert Clement was shot and killed in the centre of Paris on Tuesday evening.

The "Cri Du Peuple" is the organ of the Parti Populaire Francais published by Jacques Doriot. The attacked, a man of about 30, escaped on a bicycle.

The first shot fired struck Clement's wife in the left leg. Two more shots were fired hitting Clement himself and killing him.

The police are stated to have identified the number of the bicycle licence. Doriot was one of the leading Paris Fascists who had been tipped to succeed Laval if the present Vichy Premier failed to come up to Nazi expectations.—Reuter.

DAMAGE OF TWO LAKHS IN FIRE

JHANSI, June 2.—Damage to the tune of two lakhs of rupees was caused when a fire broke out in a cotton mill, according to a message from Hathras. The fire raged for full six hours.—A.P.

"What perfume do I use? Well, that's a difficult question! It depends entirely on what I'm doing or where I'm going—whether I want to seem lightheartedly gay or mysteriously glamorous! But in either case, it's sure to be Coty.

Most women prefer Coty perfumes. Why? Well, because they're so exquisitely *different*, so thrillingly attractive, so distinctive. No other perfumes are *quite* as lovely. And as there are so many to choose from, you're *bound* to find one to suit your particular mood or motif.
